## Skills

**Programming Languages:** Java • C • C++ • Python

**Web Development:** HTML • CSS • Tailwind CSS • JavaScript • React.js • Node.js

- Express.js

**Data Structures & Algorithms:** Strong knowledge of problem-solving and optimization techniques

**Miscellaneous:** Microsoft Azure • MySQL • MongoDB • Machine Learning • Amazon AWS

Networking fundamentals • Security awareness • Distributed Systems

**Operating Systems:** Unix/Linux • Windows

**Software Development:** Object-Oriented Programming (OOP) • Version Control (Git/GitHub)

- Agile Development

## Education

RAJARAJESWARI

COLLEGE OF  
ENGINEERING

Computer Sceince  
Engineering | 2026 |  
Bengaluru,Karnataka  
CGPA: 9.03

BGS GURUKULA INDP PU  
COLLEGE  
Science | 2022|  
Shivamogga, Karnataka  
Percentages:94.96

## Projects

### Mental Health Web App

- Designed and developed a full-stack web application with an AI-powered chatbot to support mental health through stress relief, doctor suggestions, and wellness resources.
- Implemented features like music therapy, meditation, and a sleep tracker using **HTML, CSS, JavaScript, Node.js, MySQL, and Microsoft Azure**.
- Improved user well-being by providing 24/7 accessible support, reducing stress levels, and promoting healthier lifestyle habits.

### Nike Shoes Product Portfolio Website

- Designed and developed a product portfolio website to showcase Nike shoes with interactive layouts and engaging UI.
- Built using **HTML, CSS, Tailwind CSS, JavaScript and React**, implementing responsive design for seamless viewing across devices.
- Improved user experience by creating a visually appealing and structured showcase, enhancing product presentation.

## Mini Projects

- Resume Builder App – Developed a web application using HTML, CSS, and JavaScript that enables users to create and customize professional resumes with real-time preview.
- Library Management System – Built a system using Java and MySQL to manage book records, including adding, searching, issuing, and returning books efficiently.

## Experience

### UniteGrid Infocomm

Software Developer | Jun 2025 – July 2025

- Configured and set up Ubuntu OS with a focus on security and development environment.
- Designed and developed an E-commerce website using modern web technologies.
- Gained experience in software development practices within a startup environment.

## Certificates

Java - Hacker Rank  
Hackthon – RV College of  
Engineering  
Software Development –  
Unitegrid Infocomm  
Digital Marketing – EA  
MultiServices

## Awards

Hackthon Partcipation –  
RV College of  
Engineering  
1<sup>st</sup> Place – Carrom  
Tournament  
2<sup>nd</sup> Place – Kabbadi  
Tournament

## Summary

Enthusiastic Computer  
Science student skilled in  
C++, Java, JavaScript,  
and Python, with  
experience in software  
development, full-stack  
projects, e-commerce  
internship, and hackathon  
participation.
